To the Customer,

When it comes to holiday lighting and decor, Winterland Inc. is second to none. Thirty years ago our company was founded with a singular driving force: to provide the world with innovative, awe-inspiring services in the realm of lighting and decor. Our humble beginnings included: lighted frame displays, string lights, and minimal outdoor decor. Today Winterland Inc. is a groundbreaking company in the industry; constantly looking to the future for new breakthroughs in technology to provide incredible products and service to our customers. With millions of options for interior and exterior decor, creating a custom design is what we do best. Our creative design team boasts thousands of projects for some of the country's most premier venues: The Grand Geneva Resort, Indiana Grand Casino, Kalahari Resort-Poconos, and many more! In the field of Christmas Light Parks, Winterland Inc. shines brighter than our LED bulbs! Our in-house fabricated, steel silhouette displays are the paint, and any venue is our canvas! From coast to coast, Winterland Inc.'s light parks are enjoyed by thousands of people each holiday season. Colossal venues with iconic tradition are adorned each year with our displays, venues such as: Indianapolis Motor Speedway, Las Vegas Motor Speedway, Sea World, City of Orlando, The Memphis Zoo, and scores of other magnificent locations. One can easily see that Winterland Inc. caters to a truly grand clientele. On top of our incredible customers here in the U.S. we also provide interior and exterior decor to international clients in Bahrain, Venezuela, and to U.S. Military Bases around the globe!

Winterland Inc. is not just limited to commercial decorating and light shows! Part of staying ahead of the curve in future trends, technological advancements, and streamline manufacturing, is providing beautifully designed and quality oriented products for the residential customer. We stock over 5,000 different products that give endless options for decorating, all while making the process of finding the best decor simple. For many customers though, they own cherished pieces of lighting and decor that simply need a little T.L.C. Not to worry, Winterland Inc. offers a full refurbishing program where old is made new again!

While innovation is the goal for most companies, obtaining that goal while maintaining sustainability is often not met. At Winterland Inc. we established a strong relationship with our partners to ensure that our unrivaled quality products are energy efficient. By utilizing the enhanced technological qualities of L.E.D. lighting, Winterland Inc. has provided "Green" options for our lighting products. Our L.E.D. lighting is also much easier on your wallet, as the bulbs use 1/5th the power of a standard incandescent bulb.

There is no telling what Winterland Inc. is capable of, because our motto is and always will be, "If you can dream it, we can build it." There is no telling what the future holds, whether it be technological, style trends, etc. But one thing is for sure; Winterland Inc. will be there leading the way in holiday lighting and decor! We look forward to doing business with our past, present and future customers and providing joy to all those who gaze upon the masterpieces of Winterland Inc.

PANEL TREES

Realism and quality define Winterland Inc.'s Panel Trees. The tones and shades of green that makeup our Branch Garland, have been painstakingly studied by our design team, to create the optimal product. For the customer looking to find the highest caliber of artificial tree, these Panel trees are the answer. The foliage of each tree is flame-retardant, and the foliage is crush resistant.

Each Panel Tree is comprised of our in house made Double Branch Garland. Colors of Branch Garland are Snow Tipped, Natural, Natural Gold, Natural Silver, Natural Translucent, Translucent Green, Translucent Green Gold, Translucent Green Silver. There are other colors available as well if you are looking for a unique and one-of-a-kind tree as well. (Check out the garland section to see other colors offered). Each Panel tree come with the garland pre-assembled to the frame so all you need to do is stack, bolt, plug in and go. The Frames are half circles which stack inside each other to store and for shipping. The top is a 6' tall solid cone. Frame is constructed of Tube Steel and is Plastic Powder Coated to prevent rust and extend the life of the tree.

All Panel Trees are custom made to order. Sizes start at 6' tall and go up to 50' tall. Ornaments may be added as well for a wonderful daytime look. (Check all of our Ornaments in our Ornament Catalog or on-line).

On a 6' through 15' tall tree 5MM conical lights are the standard size lights used for the trees unless requested to be a different style. 18' and larger you have a choice of C7, C9 or 5MM style lights to be used. All of our 5MM lights come standard with 4" spacing when used. C7 can have 7.5 or 12" spacing. C9 has 6" or 12" spacing. C7 lamps come with additional options of Twinkle Lamps, Frosted, Slow Change RGB (You are not able to program them, but it is a good way to add movement). C9 Lamps come with the additional option of Slow Change RGB or Quick Change RGB (No programming can be done on these.) RGB Capsule lighting is also another option for any size tree, and this can be programmed to animated in any way that you would like. Light Colors to choose from are Multi, Blue, Green, Red, Orange, Pink, Purple, Teal, Pure White, Warm White, or Yellow. The Trees are also able to be double or triple lit if you are looking to animate the tree and add sound.

Winterland Inc.'s Panel trees are proven to handle both indoor and outdoor environments, as the needles are fade proof and the foliage is UV rated for whatever Mother Nature can dish out. Stunningly gorgeous, amazingly lifelike, every artificial tree wishes it was this good!

100% MADE IN THE USA!

GIANT BRANCH TREES

Winterland Inc.'s commercial Christmas trees are the perfect holiday decoration for businesses, malls, and public spaces. With a variety of sizes and styles our trees fill every need. The commercial trees start at heights of 14 feet and can exceed heights of 100 feet. These trees are built in increments of 1 meter (3.3 feet) heights for ease of both installation and additions from year to year. Backed by years of experience in commercial tree building, Winterland Inc. can recommend the tree construction that is best for your situation. For the budget conscience, we offer both branch style and cone style designs. Both styles offer a natural look to enhance your holiday décor plan for seasonal festivities. To enhance daytime appeal, check out our full line of commercial Christmas ornaments. All our trees and ornaments are UV protected for years of outdoor use.

The steel frames of our tower trees are powder coated for use indoors or outdoors. Lighting on all trees is LED and customized to the specifications provided by our valued customers' needs. The branches are crush and fade resistant for many years of use. Winterland Inc. strives to work with each customer individually to create the best presentation possible for their venue. Winterland Inc. doesn't stop with just the lighting, we can incorporate sound. state-of-the-art

control systems also provide trees fully synchronized with the sounds of the season. The sky is the limit with our technology. Let your location become a destination with Winterland Inc. at your fingertips. There is no project too large for a Winterland Inc. commercial tree. Contact one of our sales representatives to discuss how we can assist you in creating memories this holiday season and beyond.

SEQUOIA TREES (UNLIT AND LIT)

Closeup sample of Sequoia

While using a real tree during the Holidays is good in theory, the hassle far outweighs the benefit! When looking to make a switch to a high grade and Sequoia looking artificial tree, look no further than Winterland Inc. Our Sequoia trees are not only lifelike in appearance but are entirely versatile for display in any setting. Find yourself gazing at the beauty of our "Sequoia" style of artificial trees, without worrying about the cleanup and hassle of a real tree! Sold in sizes ranging from 6' all the way to 18', there is sure to be a tree to fit your needs this Holiday season!

SEQUOIA WREATHS (LIT AND UNLIT)

A time honored tradition of the Holidays, wreaths are a festive way to decorate in any setting. Our Sequoia Wreaths at Winterland, Inc. take the highest quality components to produce a wreath that is unmatched in quality, style, durability, or realness. Pre-Lit with LED lights, these wreaths will illuminate the environment around them. The needles on the wreaths were painstakingly designed to reflect the exact hues of green found on real sequoia needles. Looking for an even more unique wreath? Incorporate Winterland, Inc.'s ornament collections onto your wreath! With professionally designed color and pattern schemes, the ornament collections add texture, depth, and vivid colors to create a stark contrast between the stunning shades of green foliage. And if you need white wreaths, our Sequoia Wreaths are available in white, sizes 2', 3' and 4'. The wreaths are UV rated for indoor and outdoor use, making them even more versatile for use in any application.

MIXED BLEND WREATHS (LIT AND UNLIT)

A time honored tradition of the Holidays, wreaths are a festive way to decorate in any setting. Our Mix Blend Wreaths at Winterland, Inc. take the highest quality components to produce a wreath that is unmatched in quality, style, durability, or realness. Pre-Lit with LED lights, these wreaths will illuminate the environment around them. The needles on the wreaths were painstakingly designed to reflect the exact hues of green found on real pine needles from 4 different types of pine, Long Needle, Short Pine, Sequoia and Frasier. Looking for an even more unique wreath? Incorporate Winterland, Inc.'s ornament collections onto your wreath! With professionally designed color and pattern schemes, the ornament collections add texture, depth, and vivid colors to create a stark contrast between the stunning shades of green foliage. The wreaths are UV rated for indoor and outdoor use, making them even more versatile for use in any application.

WINTERLAND GARLANDS

WHAT MAKES US DIFFERENT

Founded in 1988, in North central Indiana, Winterland, Inc. is one of the country's leaders in producing garland. Since then, the number of American garland manufacturers has dwindled.

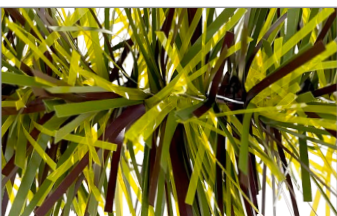

Today, we continue to make a premium garland, expanding to several different thicknesses and over 25 colors, we have the **LARGEST** American made garland portfolio in the states! The garland is UV stabilized for indoor and outdoor use. It is constructed using durable PVC films. With the ability to customize, Winterland, Inc. has catered to thousands of commercial clients; helping create beautiful scenes that feature the perfect color schemed garland.

Our garland can be produced in any of the color combinations available. Choose 1 to 3 colors as your base and we will do the rest!! All stuffed garlands are produced at a ratio of at least 8' of material to each foot of finished garland. Offered in 25' runs or 20' runs depending on the thickness of the garland selected.

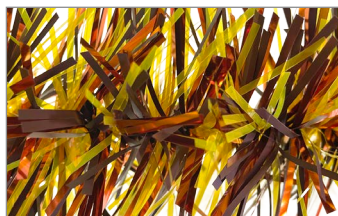

Every step of the process, from cutting to stuffing is done with the highest level of care and experience. Whether or not you are looking for 100 sq ft. wreath or 1,000,000 sq ft. of garland, Winterland, Inc. can provide it all.

Winterland, Inc. garland has been featured in thousands of cities across the United States. Our expansive portfolio include traditional pole mount displays, garland adorned homes and so much more! Our garland and lighting provide a truly brilliant daytime effect, in addition to a traditional nighttime lighting effect.
