

Winterland Inc.

Ornaments

To the Customer,

When it comes to holiday lighting and decor, Winterland Inc. is second to none. Thirty years ago our company was founded with a singular driving force: to provide the world with innovative, awe-inspiring services in the realm of lighting and decor. Our humble beginnings included: lighted frame displays, string lights, and minimal outdoor decor. Today Winterland Inc. is a groundbreaking company in the industry; constantly looking to the future for new breakthroughs in technology to provide incredible products and service to our customers. With millions of options for interior and exterior decor, creating a custom design is what we do best. Our creative design team boasts thousands of projects for some of the country's most premier venues: The Grand Geneva Resort, Indiana Grand Casino, Kalahari Resort-Poconos, and many more! In the field of Christmas Light Parks, Winterland Inc. shines brighter than our LED bulbs! Our in-house fabricated, steel silhouette displays are the paint, and any venue is our canvas! From coast to coast, Winterland Inc.'s light parks are enjoyed by thousands of people each holiday season. Colossal venues with iconic tradition are adorned each year with our displays, venues such as: Indianapolis Motor Speedway, Las Vegas Motor Speedway, Sea World, City of Orlando, The Memphis Zoo, and scores of other magnificent locations. One can easily see that Winterland Inc. caters to a truly grand clientele. On top of our incredible customers here in the U.S. we also provide interior and exterior decor to international clients in Bahrain, Venezuela, and to U.S. Military Bases around the globe!

Winterland Inc. is not just limited to commercial decorating and light shows! Part of staying ahead of the curve in future trends, technological advancements, and streamline manufacturing, is providing beautifully designed and quality oriented products for the residential customer. We stock over 5,000 different products that give endless options for decorating, all while making the process of finding the best decor simple. For many customers though, they own cherished pieces of lighting and decor that simply need a little T.L.C. Not to worry, Winterland Inc. offers a full refurbishing program where old is made new again!

While innovation is the goal for most companies, obtaining that goal while maintaining sustainability is often not met. At Winterland Inc. we established a strong relationship with our partners to ensure that our unrivaled quality products are energy efficient. By utilizing the enhanced technological qualities of L.E.D. lighting, Winterland Inc. has provided "Green" options for our lighting products. Our L.E.D. lighting is also much easier on your wallet, as the bulbs use 1/5th the power of a standard incandescent bulb.

There is no telling what Winterland Inc. is capable of, because our motto is and always will be, "If you can dream it, we can build it." There is no telling what the future holds, whether it be technological, style trends, etc. But one thing is for sure; Winterland Inc. will be there leading the way in holiday lighting and decor! We look forward to doing business with our past, present and future customers and providing joy to all those who gaze upon the masterpieces of Winterland Inc.

# SHATTERPROOF ORNAMENTS

## *Ornaments to Dazzle!*

Design discussions become effortless with our sizes, style and color of options. From 1.5" to 110" in height, our ornaments are a sight for sore eyes! What better way to complete a look than with a collection of our ornaments! There are between 200 and 350 different bulk ornaments, ornament kits, ornament packs and oversized ornaments with different finishes, sizes, and colors that are all in stock! One of the best features of the ornaments is their versatility. Not only are they perfect for any design set, most are UV coated for indoor and outdoor use, and each ornament is also shatterproof! The durability and toughness of the ornaments are just as amazing as the colorful designs that are incorporated onto each and every ornament. Because of their size, Winterland Inc. created the oversized ornaments with a special feature called "KD" which is an acronym for Knock Down. This simply means that each ornament can be disassembled and "knocked down" for the ease of storage. This is standard for all of our ornaments that are over 31".

Winterland Inc. currently carries over 17 colors of ornaments; Red, Burgundy, Copper, Orange, Gold, Sage Green, Lime Green, Green, Aqua, Blue, Purple, Pink, Brown, Black, White, Silver and Candy.

***No matter what the decorations you have in your Holiday Collections, Winterland Inc. has the ornaments that you need to will exceed your wildest dreams!***

Each style, size, and color can be bought in the number that you need! Didn't see what you had in mind? Need a larger size? Feel free to contact us at 1-800-788-9627, Monday-Friday from 8 a.m. to 5 p.m. EST, or email us anytime day or night at [sales@winterlandinc.com](mailto:sales@winterlandinc.com). ***If you can dream it, Winterland Inc. can build it!***

***17 colors and 3 finishes available!***

***Other styles and shapes available upon request.
